Subject: Clarification of the 2007 Plan Year Pricing Data Requirements

A number of questions have been submitted regarding the 2007 plan year pricing data requirements dated June 8, 2006 (<a href="http://www.cms.hhs.gov/PrescriptionDrugCovContra/03\_RxContracting\_FormularyGuidance.asp">http://www.cms.hhs.gov/PrescriptionDrugCovContra/03\_RxContracting\_FormularyGuidance.asp</a>). Below are responses to some of the common questions.

1. What log in ID and password should I use when submitting my 2007 plan year files on 7/14, 8/11, and 9/8?

All plans, current and new plans that have submitted bids for the 2007 plan year, will need to submit their files as follows on 7/14, 8/11 and 9/8:

The FTP server will be available from 12:00AM PST until 11:59PM PST.

Below are the user name, password, and IP address that your organization should use to submit your drug pricing data for the CMS Part D Plan Finder. The receipt of this user name and password shall not be considered an indicator that your organization has been approved as a Medicare-approved Plan. User names and passwords will be deactivated immediately for any plans that are not approved. Your user name and password are case sensitive; please enter these exactly as shown below:

User Name: plancompare
Password: pla17c0mpar3

Connection Information:

IP = 64.14.243.108

Port = 21234

#### As a reminder, here are the file format and submission rules:

All submissions will be Fixed Length files. The filename should follow the standard: ContractIDXX.txt where ContractID is the sponsor's CMS defined contract\_id and XX is the table name abbreviation code (defined below). For Example, for a sponsor with the contract\_id of H1001 submitting a formulary file, the file name would be H1001FF.txt. Only one file per table should be submitted. A header record should be included that specifies Contract\_ID, Record Count (num(7) with leading zeros) for the entire File (Format: XXXXXXXX), and an 8-digit Date Created (Format: CCYYMMDD) information. A footer record should be included that again specifies Contract\_ID and EOF for End of File. The Header and Footer records should not be counted in the total record count.

#### Sample Header Record

#### H0001000001020050715

(Where H0001 is the Contract\_ID, 0000010 is the Record Count, and 20050715 is the date)
Sample Footer Record
H0001EOF

**Table Abbreviation Codes:** 

- o Formulary File **FF**
- o Reference Pricing RP
- o Pharmacy Cost PC
- o Pricing File PF

Float(8) and Currency(8) Submission Guidelines:

- Do not include the decimal point
- The format follows this structure \$\$\$\$cccc where \$\$\$\$ are the numbers to the left of the decimal point (with leading zeros) and the cccc are the numbers to the right of the decimal point (with trailing zeros)
- Samples:

```
o $1.50 = 00015000
```

010% = 00001000

*Please Note:* All drug pricing data files must be submitted in zipped file format. All files submitted can be included in one zip file. The submitted zip file should be named CONTRACTID.ZIP. For example, **H1001.zip**.

To submit files, simply login to the ftp address above at the specified port using the username and password provided above. Please be sure to use a passive mode ftp client. Once you've logged into the ftp site, upload your files using your ftp client's upload function. Once your submission is complete, you can sign off. If there is an error with your submission, please email

plancompare@destinationrx.com and notify us. The focus of this submission is to verify that each plan has the correct data file layout and can successfully transmit their data. You will be notified of the analysis of your data submission by 8/1/2006.

For security reasons, this account does not have permission to view the files submitted to the server. This means that when you connect to the FTP server you will receive a message that indicates that you *can't view the contents of the folder*, or that *access is denied*. The exact error message varies based on your FTP program. This error DOES NOT prevent you from loading your files.

After uploading, **if you don't receive an ERROR message**, **your transfer was successful.** When your upload is complete, you may not see your files on the server. Depending on the FTP program you are using, you will receive a status message that says something like: *Transfer Successful*. If you are using Internet Explorer to upload you will not receive any status message, unless there was an error. Due to the volume of submissions, we will not be able to advise you if your transfer was successful until your analysis has been completed.

IMPORTANT NOTE: PLANS THAT CURRENTLY USE THE ADMIN CONSOLE TO VIEW SUBMISSION STATUS FOR THEIR 2006 BENEFIT YEAR BIWEEKLY SUBMISSIONS WILL NOT BE ABLE TO VIEW SUBMISSION STATUS IN THE ADMIN CONSOLE FOR 2007 TEST FILES.

Effective with the 10/4 data submission, plans that are active for the 2006 plan year will use the log in ID and password that they are currently using for the submission of their 2006 plan year pricing data. Plans that are new for the 2007 plan year will receive their unique log in ID and password before the 10/4 data submission. This information will be emailed to the Part D Price File Contacts listed in HPMS.

2. How do I get access to the Administrative Console?

Plans that are new for the 2007 plan year will receive their unique log in ID and password before the 10/4 data submission. This information will be emailed to the Part D Price File Contacts listed in HPMS.

Plans that are active for the 2006 plan year will continue to use the log in ID and password that was assigned for the 2006 plan year.

3. How will CMS distinguish between the 2006 and 2007 pricing data files?

During the overlap period where both 2006 and 2007 pricing data will be submitted, CMS will distinguish the different files based on the submission dates. 2006 pricing data will continue to be submitted on Wednesdays and 2007 pricing data will be submitted on Fridays per the submission calendar. Please note that the submission day for 2007 will change to Wednesdays effective with the October 4, 2006 data submission.

4. What data needs to be submitted by plans on July 14<sup>th</sup>?

Plans will need to submit complete data files. This includes complete Pricing Files and Pharmacy Cost Files and if applicable a Reference Pricing File and a Formulary File for Excluded Drugs.

Reference Pricing files are only to be submitted by plans using reference pricing and indicated as such in the PBP. Formulary Files for Excluded Drugs are only to be submitted by Enhanced Alternative plans that cover excluded drugs. These plans must also submit corresponding pricing data for these drugs in their Pricing Files.

5. Do employer (retiree) and PACE plans need to submit pricing data files.

No.

6. On Page 6 of the document dated June 8, 2006 there is a typographical error in the first paragraph under the section labeled "File Formats." The example for the naming conventions for the files was missing the preceding alpha character for the contract type. Correct file naming must include the complete contract ID (e.g. H1001 or S1001). Corrected Example, for a sponsor with the contract\_id of H1001 submitting a formulary file, the file name would be H1001FF.txt.

The following pages contain an updated version of the 2007 plan year pricing data requirements with the typographical error referenced in #6 above corrected.

Questions about the information presented in this document should be directed to <a href="mailto:plancompare@destinationrx.com">plancompare@destinationrx.com</a>, <a href="mailto:Thomas.dudley@cms.hhs.gov">Thomas.dudley@cms.hhs.gov</a>, and <a href="mailto:Kathy.oh@cms.hhs.gov">Kathy.oh@cms.hhs.gov</a>.

Thank you.

A header record should be included that specifies Contract\_ID, Record Count (num (7) with leading zeros) for the entire File (Format: XXXXXXX), and an 8-digit Date Created (Format: CCYYMMDD) information. A footer record should be included that again specifies Contract\_ID and EOF for End of File.

If both services are offered, enter 1 for both fields. Otherwise, enter a 1 only for the applicable pharmacy type. **Please note, if a pharmacy offers retail 90 day supply, it is NOT considered a mail order pharmacy, and should have a 0 for PHARMACY\_MAIL**

CONTRACT_ID	Char(5)	NOT NULL	References Organization's Contract Number assigned by CMS
PRICE_ID	Number(3)	NOT NULL	Price File Grouping Number
NDC	Char(11)	NOT NULL	Any 11 Digit NDC representing the drug/dosage combination

#### **Notes:**

- This file determines the base unit cost of an NDC in a given pricing regime.
- Price\_ID is identified by the Organization, within the following parameters;
  - o The lowest available PRICE\_ID is 100
  - o PRICE\_IDs should be assigned sequentially
  - o PRICE\_IDs for Retail pharmacies should be between 100 and 199
  - o PRICE\_IDs for Mail-Order pharmacies should be between 200 and 299
  - o In the event that an organization has over 100 PRICE\_IDs for a given type (retail or mail-order), additional PRICE\_IDs should begin sequentially in the next group of 100s where retail pharmacies are in the 300, 500, 700, 900 series, and mail-order pharmacies are in the 400,600,800 series.
- There can be multiple pricing files per organization.
- The pricing file is applied to the plan through the Pharmacy Cost file.
- Pricing data must be submitted for all drugs covered on a plan's formulary.
- Unit pricing can be provided for both a month and three-month supply. If only one type applies, enter 0 in the non-applicable field. If both types apply, but are the same, enter the same value in both fields.

Submission Frequency: Organizations will be required to submit pricing on a bi-weekly basis. If no updates are required, Organizations will be required to certify via email that there are no updates. In the case of no updates, the previous week's pricing data will be used.

**Submission Notes:** For pricing display, the tool will display one cost for all NDCs of a given drug/dosage combination. Organizations will submit records as described above with unit costs for the specific NDCs listed in the Reference NDC List (http://www.cms.hhs.gov/PrescriptionDrugCovContra/Downloads/CY07ReferenceNDCFile.zip ) that match your plan's CMS approved

formulary. Submission of NDCs not on the Reference NDC list will result in incorrect pricing for that drug dose combination on the drug plan finder. .

For formulary drugs and generics, organizations will submit unit cost pricing as described above. For non-formulary drugs, organizations may elect to submit pricing. If no pricing is submitted, the unit cost will be approximated based on AWP pricing minus a standard discount between 10% and 13% plus a standard dispensing fee.

All prices submitted will be subject to periodic audit by CMS against submitted claim data.

#### REFERENCE PRICING

Field Name	Type(Size)		Field Description
CONTRACT_ID	Char(5)	NOT NULL	References Organization's Contract Number assigned by CMS
PLAN_ID	Char(3)*	NOT NULL	References PLAN_ID that this pharmacy cost file serves assigned by CMS
SEGMENT_ID	Char(3)*	NOT NULL	Plan Segment ID only for local MA-PD plans assigned by CMS (If applicable)
NDC	Char(11)	NOT NULL	11-digit NDC of the drug for which reference pricing should apply
NDC_REFERENCE	Char(11)	NOT NULL	11-digit NDC of the drug whose price and cost should be referenced
REFERENCE_TYPE	Number(1)	NOT NULL	1=dollars and cents; 2 = percentage
REFERENCE_AMOUNT	Float(8) (Format: \$\$\$\$ccc)	NOT NULL	8 character number including leading zeros  If REFERENCE_TYPE=1, enter the dollar amount with 4 implied decimal places – e.g., \$15 is entered as 00150000.  If REFERENCE_TYPE=2, enter the percentage as a decimal value with four implied decimal places – e.g., 15% is entered as 00001500 and 100% is entered as 00010000.

#### Notes

- This is an optional table.
- There should be one record per plan and NDC, where applicable.
- The reference pricing calculation increases beneficiary's estimated copay/co-insurance amount by applying either a fixed or percentage fee in addition to the copay of the referenced drug.

• The reference amount can be either a fixed dollar amount OR a percentage of the difference of the total drug cost of the original and reference drugs. For example, with a reference fee of 100%, beneficiary's copay would be \$25 if a brand drug priced at \$40 is selected over a direct generic priced at \$20 with a \$5 copay (i.e., \$40 brand cost - \$20 generic cost + the \$5 copay for the generic medication).

Submission Frequency: Organizations will be required to submit pricing on a bi-weekly basis. If no updates are required, Organizations will be required to certify via email that there are no updates. In the case of no updates, the previous week's pricing data will be used.

Additional Guidance on Reference File Submissions:

#### **EXAMPLES**

Assume the following information for the examples below:

Drug name	BRAND_A	GENERIC	BRAND_B
NDC	99123456789	66987654321	55192837465
Unit price	\$1.20	\$0.75	\$1.50

Cost share below the ICL	25%	\$3.00	25%

#### SITUATIONS THAT CAN BE HANDLED BY THE REFERENCE PRICING FILE

**CASE 1**. If the beneficiary chooses BRAND\_A over GENERIC, he or she must pay the co-pay for the generic plus an additional \$7.50 per scrip:

[NOTE: Pipes are inserted only to provide visual clarity!]

**CASE 2**. If the beneficiary chooses BRAND\_A over GENERIC, he or she must pay the co-pay for the generic plus an additional amount equal to the difference in the monthly cost:

**CASE 3**. If the beneficiary chooses either BRAND\_A or BRAND\_B over GENERIC, he or she must pay the co-pay for the generic plus an additional amount equal to the half the difference in the monthly cost

**CASE 4**. If the beneficiary chooses BRAND\_A over GENERIC, he or she must pay an additional amount equal to the half the difference in the monthly cost. If BRAND\_B is chosen over GENERIC, the additional amount is \$8.

H0001|000002|20060302 H0001|001|000|99123456789|66987654321|2|00005000 H0001|001|000|55192837465|66987654321|1|00080000 H0001EOF [NOTE: Pipes are inserted only to provide visual clarity!]

#### SITUATIONS THAT CANNOT BE HANDLED BY THE REFERENCE PRICING FILE

**CASE 5**. The allowed monthly cost for the scrip, whether filled with BRAND\_A, BRAND\_B, or GENERIC, is determined by the lowest-priced NDC for GENERIC. (In this case, the TARGET\_NDC and REFERENCE\_NDC point to the same product, **which will create an exception**.)

**CASE 6**. There is a surcharge if the scrip for GENERIC is filed from any manufacturer's bottle except Manufacturer X. (Again, the TARGET\_NDC and REFERENCE\_NDC point to the same product, **which will create an exception**.)

#### REFERENCE PRICING FILE EDIT CHECKS

The following edit checks are applied to each file submitted to DestinationRx for the Plan Finder website. An exception is generated as the result of any of the conditions listed below. In the text that follows, TARGET\_NDC refers to the product subject to reference pricing and REFERENCE\_NDC refers to the product that forms the reference.

1. Invalid NDC

TARGET\_NDC or REFERENCE\_NDC is inactive or obsolete.

#### 2. Incorrect specification of REF\_TYPE

REF\_TYPE is neither 1 (surcharge is in dollars) nor 2 (surcharge is in percentage terms)

#### 3. Anomalous REF\_AMT

REF\_AMT=0 (no surcharge)

REF\_TYPE=2 and REF\_AMT>1 (surcharge exceeds 100%)

REF\_TYPE=1 and REF\_AMT<=1

#### 4. Reference drug or Target drug is not on formulary

Drug product (name/form/strength) associated with REFERENCE\_NDC is not found in the relevant Formulary File submitted to DestinationRx.

#### 5. Multiple references

The product associated with TARGET\_NDC is paired with more than one other product (associated with REFERENCE\_NDCs).

#### 6. Auto-referencing

TARGET\_NDC and REFERENCE\_NDC are associated with the same product (name/form/strength).

#### 7. Looping reference pricing

TARGET\_NDC is associated with a product that is also associated with REFERENCE\_NDC elsewhere in the Reference Pricing file (i.e., Product A is referenced to Product B, which in turn is referenced to Product C)

#### 8. Reverse reference pricing

REF\_TYPE = 2 and TARGET\_NDC is a LOWER cost product than REFERENCE\_NDC.

# FORMULARY FILE (EXCLUDED DRUGS ONLY; THIS FILE WILL ONLY BE ACCEPTED FROM ENHANCED ALTERNATIVE PLANS COVERING EXCLUDED DRUGS)

#### **Notes:**

- This file can only be submitted for enhanced alternative plans that cover all or some excluded drugs. The CMS approved formulary in HPMS will be used to display all other formulary drugs.
- This file will provide the tier information by NDC for excluded drugs.
- Drugs not on the CMS excluded list CANNOT be included in this file.
- A formulary file will be assigned to plans for the organization via the formulary id.
- Enhanced Alternative plans not submitting excluded drug formulary files will be assumed to not cover excluded drugs
- As the plan selector application is primarily designed to provide beneficiaries with information to select a drug plan that meets their needs and not a tool for current drug plan enrollees to seek information about their plan, this tool will disregard the 60-day notice window required when a drug changes tiers. Thus, a tier will display in its new tier prior to the expiration of the 60-day notice window. Plans are required to notify all current plan enrollees about any formulary changes before the changes are implemented.
- Organizations will submit the formulary as described above for all covered excluded drug NDCs in the plan's formulary. Fields available in HPMS will be subject to Data Validation described above.
- An NDC can only exist in one tier per formulary.

Submission Frequency: Organizations will be required to submit pricing on a bi-weekly basis. If no updates are required, Organization will be required to certify via email that there are no updates. In the case of no updates, the previous week's pricing data will be used.
